Ahmed Mohammed Al-Harbi

Senior Software Engineer | Full Stack Developer

PROFESSIONAL SUMMARY Senior Software Engineer with over a decade of experience in designing, developing, and deploying scalable, secure, and high-performance software solutions. Successfully delivered over 25 enterprise-level projects serving more than 100,000 users across web and mobile platforms. Expert in full-stack and backend development, system architecture, and cloud-based solutions using JavaScript, TypeScript, Python, Java, PHP, and frameworks such as React, Node.js, Laravel, and Flutter. Proven leader in Agile/Scrum environments, with a strong focus on clean architecture, performance optimization, and security best practices.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, PHP

Web Development: React.js, Node.js, Laravel, Angular

Mobile Development: Flutter

Database Management: MySQL, PostgreSQL, MongoDB, Firebase

Version Control: Git & GitHub

DevOps & Cloud: Docker, AWS, CI/CD

System Administration: Linux

API Development: REST APIs

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Advanced Technology Company - Riyadh, Saudi Arabia

Mar 2022 - Jan 2026

- Designed and developed scalable web and backend systems for enterprise clients. Led a development team of 10 engineers across multiple projects. Built and optimized RESTful APIs and microservices architectures. Improved application performance by 45% through code and database optimization. Implemented CI/CD pipelines, reducing deployment time by 40%. Conducted code reviews and mentored junior developers.

Software Engineer

Smart Software Solutions - Jeddah, Saudi Arabia

Mar 2018 - Jan 2021

- Developed internal systems and dashboards for business operations. Collaborated with UI/UX and QA teams to deliver high-quality software. Maintained and optimized SQL and NoSQL databases. Participated in full software development lifecycle (SDLC).
