

Ahmed Mohammed Al-Harbi

Senior Software Engineer | Full Stack Developer

PROFESSIONAL SUMMARY Senior Software Engineer with over a decade of experience in designing, developing, and deploying scalable, secure, and high-performance software solutions. Successfully delivered over 25 enterprise-level projects serving more than 100,000 users across web and mobile platforms. Expert in full-stack and backend development, system architecture, and cloud-based solutions using JavaScript, TypeScript, Python, Java, PHP, and frameworks such as React, Node.js, Laravel, and Flutter. Proven leader in Agile/Scrum environments, with a strong focus on clean architecture, performance optimization, and security best practices.

TECHNICAL SKILLS

Programming Languages: JavaScript

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Advanced Technology Company - Riyadh, Saudi Arabia

Mar 2022 - Jan 2026

- Designed and developed scalable web and backend systems for enterprise clients. Led a development team of 10 engineers across multiple projects. Built and optimized RESTful APIs and microservices architectures. Improved application performance by 45% through code and database optimization. Implemented CI/CD pipelines, reducing deployment time by 40%. Conducted code reviews and mentored junior developers.

PROJECTS

Enterprise Content Management System (CMS)

- Designed and developed a scalable CMS platform supporting 50,000+ users, enabling content management, role-based access control, analytics dashboards, and secure authentication.

Technologies: React.js, Node.js, MongoDB, AWS
