SUMMARY

A dedicated Mobile Software Engineer specializing in mobile application development using Flutter and React Native, with a strong foundation in front-end development. Experienced in building practical applications focused on user experience and performance, including a taxi app and a queue management system. Actively involved in IEEE and certified in Front-End Development from Udemy and CCNA from Cisco, providing a balanced mix of programming skills and network understanding. Committed to solving problems, effective teamwork, and continuous learning to stay updated with the latest technologies in software development.
