AHMED NAYEL AL DARABEE

FRONT-END WEB ENGINEER | REACT| NODE.JS

Location: Amman, Jordan | +962 785266266 | darabcee.info@gmail.com | View Profile | LinkedIn: ahmed-al-darabee | GitHub: github.com/Ahmed-Al-Darabee

SUMMARY

Front-End Web Developer specialized in React and Next.js with strong expertise in JavaScript and TypeScript. Experienced in building scalable, high-performance web applications, reusable components, and modern responsive interfaces. Focused on clean architecture, performance optimization, and best development practices.

PROFESSIONAL EXPERIENCE

Front-End Web Developer, Virtual Data It
Feb 2025 - Jan 2026

Amman, Jordan

- Contributed to multiple projects and ongoing frontend development for e-learning and project management platforms. Implemented reusable UI components, responsive layouts, and refactored legacy code to improve maintainability and performance. Developed and maintained scalable, high-performance frontend applications using React.js and Next.js.

KEY PROJECTS

SyncHand – Projects and Tasks Management Tool

miemo-master-mjjg1m.laravel.cloud/register

- Built a modular and user-friendly interface with Next.js, Tailwind CSS, and React Hook Form for smooth task and project operations. Integrated AI capabilities via the Gemini API to enable smart chatbot navigation within the platform.
