PROFESSIONAL SUMMARY

Senior Software Engineer & Full Stack Developer with over a decade of experience in designing, developing, and deploying scalable, secure, and high-performance software solutions. Successfully delivered 25+ enterprise-level projects serving 100,000+ users across web and mobile platforms. Expert in full-stack and backend development, system architecture, and cloud-based solutions using JavaScript, TypeScript, Python, Java, PHP, and frameworks such as React, Node.js, Laravel, and Flutter. Proven leader in Agile/Scrum environments, with a strong focus on clean architecture, performance optimization, and security best practices.

TECHNICAL SKILLS

Programming Languages: JavaScript, Java, Python, PHP

Mobile Development: Flutter

Web Development: HTML, JavaScript, TypeScript

Database Management: MySQL, PostgreSQL, MongoDB, Firebase

Project Coordination: Git & GitHub, Docker, AWS

PROFESSIONAL EXPERIENCE

Senior Business Administration Specialist

CsC - Amman, Jordan

Feb 2024 - Mar 2024

- Senior Business Administration Specialist with extensive experience in business operations, administrative management, and process optimization. Led and managed cross-functional administrative operations supporting multiple departments and 50+ employees, ensuring efficiency, compliance, and alignment with organizational goals.
- Oversaw strategic planning, reporting, budgeting, and performance tracking, contributing to 20% improvement in operational efficiency and 15% reduction in administrative costs. Acted as a key liaison between management, finance, HR, and external stakeholders to streamline workflows and enhance communication.
- Implemented policies, procedures, and documentation standards, improving audit readiness and regulatory compliance by 30%. Managed contracts, vendor relationships, and procurement processes, negotiating agreements that resulted in 10-18% cost savings. Strong expertise in data analysis, decision support, and executive reporting, with a proven ability to drive continuous improvement in fast-paced business environments.

Senior Software Engineer

Advanced Technology Company - Riyadh, Saudi Arabia

Jan 2022 - Jan 2026

-   Designed and developed scalable web and backend systems for enterprise clients.
-   Led a development team of 10 engineers across multiple projects.
-   Built and optimized RESTful APIs and microservices architectures.
-   Improved application performance by 45% through code and database optimization.
-   Implemented CI/CD pipelines, reducing deployment time by 40%.
-   Conducted code reviews and mentored junior developers.

PROJECTS

Enterprise Content Management System (CMS)

- Designed and developed a scalable CMS platform supporting 50,000+ active users, managing 120,000+ content records, implementing role-based access control for 10+ user roles, real-time analytics dashboards, and secure authentication, resulting in 35% faster content publishing and 40% improved system performance.

Technologies: React.js, Node.js, MongoDB, AWS
